Project Mission Statement

Our project is intended to raise awareness of and contribute to the maintenance of Venetian heritage art by cataloging, organizing, and publishing interactive information.

Project Objectives

1. To validate, expand, and complete existing WPI church floor and bell tower catalogues.
2. To organize existing data, specifically pertaining to churches, bell towers, and public art.
3. To determine an easy and efficient method to display, manage, and maintain the data
4. To develop and demonstrate a functional prototype of the data manage system

Accomplishments of the week:

- Translated Dr. Wolter's article on Bells and Bell Towers with Oljora (see Attached)
